FY2021 YEAR IN REVIEW

Access to health care is provided in accordance with section 3309.69 of the Ohio Revised Code and rule 3309-1-35 of the Ohio Administrative Code.

During FY2021, the School Employees Retirement System of Ohio (SERS) continued to provide Non-Medicare and Medicare group coverage for eligible benefit recipients through a combination of investment income, federal subsidies, employer contributions, and premiums.

Employer contributions are distributed to the Health Care Fund by a health care surcharge to compensate for low-wage earners. Additional contributions are allocated at the Retirement Board's discretion, in accordance with its Funding Policy, requiring a pension funded ratio of 70% before any additional health care contribution can be made.

At the outset of FY2021, the Health Care Fund had reached \$483 million, and the actuary's valuation predicted solvency for 34 years to 2054.

The Health Care Fund value ended the fiscal year on June 30, 2021, at \$600 million. The Retirement Board elected to allocate no employer share to the Health Care Fund, and the actuarial valuation anticipated 37 years of solvency at the end of FY2021, until 2058.

SERS continues to operate two programs designed to reduce costs for the non-Medicare population.

The SERS Wraparound Health Reimbursement Arrangement (HRA) assists eligible enrollees to select a federal Marketplace plan as primary health care coverage, after which the SERS Wraparound HRA reimburses for certain eligible out-of-pocket costs. Approximately 8% of SERS' Non-Medicare enrollees elect this plan, saving approximately \$3 million during 2021.

The SERS early Medicare program reviews non-Medicare claims experience to identify enrollees potentially eligible for Medicare prior to age 65. The SERS disability benefit recipients who elect SERS' non-Medicare health care coverage also are required to apply for early Medicare. The early Medicare program saves the Health Care Fund approximately \$3.5 million annually.

A rule change impacting non-Medicare benefit recipients went into effect January 1, 2021.

Under the new rule, benefit recipients who are eligible for Medicaid lose eligibility for SERS' non-Medicare health care coverage.

Medicaid provides a no-cost health care plan to low-income individuals and families. Benefit recipients regain eligibility for SERS' health care coverage within 90 days of becoming Medicare eligible or within 31 days of becoming ineligible for Medicaid.

*All benefit category costs in the aggregate are subject to the overall total Maximum Amount under this Plan. Such costs can be used in various combinations but shall not, in the aggregate, exceed the Maximum Amount. Reimbursement is limited to cost sharing after the Participant's Marketplace plan has adjudicated any claim(s). Actual reimbursement may vary according to the Participant's Marketplace plan's terms, but will in no event exceed the Participant's actual out-of-pocket expenses under the applicable Marketplace plan.

The SERS Wraparound HRA eligible expenses noted above only apply to covered services under a Marketplace plan. Claims for non-covered services are not eligible for reimbursement.

The SERS Wraparound Health Reimbursement Arrangement (HRA) is available to health care participants who are not eligible for Medicare and not enrolled in Medicaid.

Participants select an insurance plan through the Health Insurance Marketplace, and SERS then "wraps" the Marketplace plan by providing additional benefits to reimburse a portion of the deductible, copays, and other costs.

SERS Wraparound HRA enrollees are eligible for Marketplace premium and cost sharing subsidies, and SERS saves thousands of dollars yearly for each enrollee who elects this plan.

HEALTH CARE FUTURE

During FY2021, the Retirement Board maintained group coverage for both non-Medicare and Medicare eligible enrollees.

The Board passed a resolution to exclude non-Medicare benefit recipients who are eligible for Medicaid from eligibility for SERS' health care coverage, effective January 1, 2021.

A second resolution eliminated SERS' health care eligibility for enrollees who fail to enroll or maintain enrollment in Medicare B, a requirement for SERS' Medicare Advantage plan. The rule change took effect in September 2021.

Affordable Care Act federal premium subsidies were expanded, effective August 15, 2021, to encourage health coverage nationally during the COVID-19 pandemic, which enhanced the value for enrollees electing SERS' Wraparound HRA. SERS' Non-Medicare group plan enrollees were mailed information encouraging them to consider enrollment in the SERS Wraparound HRA.

Efforts to increase the SERS Wraparound HRA coverage will continue into 2022.

Health care and government relations staff continue to monitor and evaluate the impact of proposed federal changes in Medicare and prescription drug pricing.

Cost-saving efforts and positive FY2021 investment returns have stabilized the SERS Health Care Fund during this period of continued cost inflation and in the absence of additional employer contributions during FY2021. The Board's continuing review of the program will evaluate further changes necessary to provide health care access for the SERS retirees into the future.

Similar to medical plans across the country, the COVID-19 pandemic lowered SERS' group medical expenses during spring and summer 2020. Actuaries predicted an increase in costs during CY2021 and potentially 2022 as cases recede and deferred care expenses rise.

The Board and staff will monitor costs and trends as these changes continue to unfold.

SUPPLEMENTARY STATUTORY REQUIREMENTS

In accordance with section 3309.21(E) of the Ohio Revised Code (ORC), the SERS Retirement Board is required to prepare an annual report as of June 30 documenting full accounting of the revenues and costs relating to provision of health care coverage under sections 3309.375 and 3309.69 of the ORC.

Ohio law mandates that SERS submit the report by December 31 of the following year to the Ohio Retirement Study Council, director of Budget and Management, and the standing committees of the Ohio House of Representatives and Ohio Senate.

The following information fulfills the requirements of SERS as outlined in ORC Section 3309.21(E). The requirements and the System's responses include:

(1) A Description of the Statutory Authority for the Benefits Provided

Access to health care is provided in accordance with the following sections of the Ohio Revised Code (ORC) and Chapter 3309 of the Ohio Administrative Code, and is financed through a combination of employer contributions and retiree premiums, copays, and deductibles on covered health care expenses, investment returns, and any reimbursements received as a result of SERS' participation in Medicare programs:

Sec. 3309.375 Hospital insurance coverage for retirants.

- (A) Except as otherwise provided in division (B) of this section, the board of the school employees retirement system shall make available to each retirant or disability benefit recipient receiving a monthly allowance or benefit on or after January 1, 1968, who has attained the age of sixty-five years, and who is not eligible to receive hospital insurance benefits under the federal old age, survivors, and disability insurance program, hospital insurance coverage substantially equivalent to the federal hospital insurance benefits, "Social Security Amendments of 1965," 79 Stat. 291, 42 U.S.C.A. 1395c, as amended. This coverage shall also be made available to the spouse, widow, or widower of such retirant or disability benefit recipient provided such spouse, widow, or widower has attained age sixty-five and is not eligible to receive hospital insurance benefits under the federal old age, survivors, and disability insurance program. The widow or widower of a retirant or disability benefit recipient shall be eligible for such coverage only if he or she is the recipient of a monthly allowance or benefit from this system. Not less than twenty-five per cent of the cost for such coverage shall be paid from the appropriate funds of the school employees retirement system and the remainder by the recipient of the allowance or benefit.

The cost of such coverage, paid from the funds of the system, shall be included in the employer's rate provided by sections 3309.49 and 3309.51 of the Revised Code. The retirement board is authorized to make all necessary rules pursuant to the purpose and intent of this section, and shall contract for such coverage as provided in section 3309.69 of the Revised Code.

Notwithstanding sections 3309.49 and 3309.51 of the Revised Code, the employer's contribution rate shall not be increased until July 1, 1969, or later to reflect the increased costs created by this section.

- (B) The board need not make the hospital insurance coverage described in division (A) of this section available to any person for whom it is prohibited by section 3309.69 of the Revised Code from paying or reimbursing the cost of such insurance.

Sec. 3309.49 Employer's contribution rate.

Each employer shall pay to the school employees retirement system at such times as required by the school employees retirement board under section 3309.51 of the Revised Code an amount that shall be a certain per cent of the earnable compensation of all employees, and shall be known as the "employer contribution." The rate per cent of such contribution shall be fixed by the actuary on the basis of the actuary's evaluation of the liabilities of the school employees retirement system, but shall not exceed fourteen per cent, and shall be approved by the school employees retirement board. The school employees retirement board may raise the rate per cent of the contribution to fourteen per cent of the earnable compensation of all employees. In making such evaluation, the actuary shall use, as the actuarial assumptions, regular interest and such mortality and other tables as are adopted by the school employees retirement board. The actuary shall compute the percentage of such earnable compensation, to be known as the "employer rate," required annually to fund the liability for all allowances, annuities, pensions and other benefits, and any deficiencies in the various funds, provided for in this chapter, after deducting therefrom the annuity and other benefits provided by the contributor's accumulated contributions and deposits or other applicable moneys.

Sec. 3309.491 Employer minimum compensation contribution to fund future health care benefits.

(A) An actuary employed by the school employees retirement board shall annually determine the minimum annual compensation amount for each member that will be needed to fund the cost of providing future health care benefits under section 3309.69 of the Revised Code. The amount determined by the actuary under this division shall be approved by the board and shall be known as the “minimum compensation amount.”

(B) (1) The secretary of the school employees retirement board shall annually determine for each employer the “employer minimum compensation contribution.”

Subject to division (B)(2) of this section, the amount determined shall be the lesser of the following:

(a) An amount equal to two per cent of the compensation of all members employed by the employer during the prior year;

(b) The total of the amounts determined as follows for each member whose compensation for the prior year was less than the minimum compensation amount:

(i) Subtract the member’s compensation for the prior year from the minimum compensation amount;

(ii) Multiply the remainder obtained under division (B)(1)(b)(i) of this section by one, or if the member earned less than a year’s service credit for the prior year, by the same fraction as the fraction of a year’s service credit credited to the member under section 3309.30 of the Revised Code;

(iii) Multiply the product obtained under division (B)(1)(b)(ii) of this section by the employer contribution rate in effect for the year the service credit was earned.

(2) If the total of the employer minimum contribution amounts determined under division (B)(1) of this section exceeds one and one-half per cent of the compensation of all members employed by employers required to pay the employer minimum compensation contribution, the school employees retirement board shall reduce the amount determined for each employer so that the total amount determined does not exceed one and one-half per cent of the compensation of all members employed by employers required to pay the employer minimum compensation contribution. Any reduction shall be applied to each employer in the same proportion as the employer’s minimum compensation contribution bears to the total employer minimum compensation contribution.

(C) The secretary shall annually certify to each employer the employer minimum compensation contribution determined under division (B) of this section. In addition to the employer contribution required by section 3309.49 of the Revised Code, each employer shall pay annually to the employers’ trust fund the amount certified to the employer under this division.

- (D) Annually by the first day of August, the secretary shall submit to the superintendent of public instruction a list of the payments made by each employer under this section during the preceding fiscal year.

- (A) The school employees retirement board may establish a program to provide medical, hospital, surgical, prescription, or other health care coverage, benefits, reimbursement, or any combination thereof, to eligible individuals or dependents.

Any program established under this section shall be designed and administered by the board. In establishing a program, the board may do any of the following:

- (1) Enter into an agreement with persons or government agencies authorized to do business in the state for issuance of a policy or contract of health, medical, hospital, prescription, surgical, or other health care benefits, or any combination thereof;
 - (2) Provide for self-insurance of risk or level of risk and provide through the self-insurance method specific benefits as authorized by the rules of the board;
 - (3) Provide reimbursements or subsidies to eligible participants;
 - (4) Make disbursements;
 - (5) Determine levels of coverage and costs for the program;
 - (6) Take any other action it considers necessary to establish and administer the program.
- (B) If it establishes a health care program, the board shall establish eligibility criteria and any other requirements for participation. To be eligible, an individual must meet the criteria established by the board and be one or more of the following:
- (1) A former member receiving benefits pursuant to section 3309.34, 3309.35, 3309.36, or 3309.381 or former section 3309.38 of the Revised Code;
 - (2) A disability benefit recipient receiving a disability benefit pursuant to section 3309.35, 3309.39, 3309.40, or 3309.401 of the Revised Code;
 - (3) A beneficiary receiving monthly benefits pursuant to section 3309.45 of the Revised Code;
 - (4) The beneficiary of a former member who is receiving monthly benefits pursuant to section 3309.46 of the Revised Code;
 - (5) A dependent, as determined under rules adopted by the board, of an individual described in divisions (B)(1) to (4) of this section.
- (C) The cost paid from the funds of the system for coverage under this section shall be included in the employer contribution under sections 3309.49 and 3309.491 of the Revised Code.

- (D) (1) The board may require payment of a premium for participation in the health care program. Participation is deemed consent for the deduction of premiums from any pension, benefit, or annuity provided under this chapter to an eligible participant.
- (2) An individual who fails to pay any required premium or receives any coverage or payment to which the individual is not entitled shall pay or repay any amount due the system. If an individual fails to pay or repay an amount due, the system may withhold the amount from any pension, benefit, annuity, or payment due the individual or the individual's beneficiary under this chapter or collect the amount in any other manner provided by law.
- (E) A health care program participant who is eligible for coverage under medicare part B, "Supplementary Medical Insurance Benefits for the Aged and Disabled," 42 U.S.C. 1395j, as amended, shall enroll for that coverage. The board shall, beginning the month following receipt of satisfactory evidence of the payment for coverage, make a monthly payment to the participant in an amount determined by the board for such coverage that is not less than forty-five dollars and fifty cents, except that the board shall make no payment to a participant who is not eligible for coverage under medicare part B or pay an amount that exceeds the amount paid by the recipient for the coverage.
- (F) The board shall establish by rule requirements for the coordination of any coverage, payment, or benefit provided under this section or section 3309.375 of the Revised Code with any similar coverage, payment, or benefit made available to the same individual by the public employees retirement system, Ohio police and fire pension fund, state teachers retirement system, or state highway patrol retirement system.

Sec. 3309.691 Long term health care programs.

The school employees retirement board may establish a program under which members of the retirement system, employers on behalf of members, and persons receiving service, disability,

or survivor benefits are permitted to participate in contracts for long-term health care insurance. Participation may include dependents and family members. If a participant in a contract for long-term care insurance leaves employment, the participant and the participant's dependents and family members may, at their election, continue to participate in a program established under this section in the same manner as if the participant had not left employment, except that no part of the cost of the insurance shall be paid by the participant's former employer.

Such program may be established independently or jointly with one or more of the other retirement systems. For purposes of this section, "retirement systems" has the same meaning as in division (A) of section 145.581 of the Revised Code.

The board may enter into an agreement with insurance companies, health insuring corporations, or government agencies authorized to do business in the state for issuance of a long-term care insurance policy or contract. However, prior to entering into such an agreement with an insurance company or health insuring corporation, the board shall request the superintendent of insurance to certify the financial condition of the company or corporation. The board shall not enter into the agreement if, according to that certification, the company or corporation is insolvent, is determined by the superintendent to be potentially unable to fulfill its contractual obligations, or is placed under an order of rehabilitation or conservation by a court of competent jurisdiction or under an order of supervision by the superintendent.

The board may adopt rules in accordance with section 111.15 of the Revised Code governing the program. Any rules adopted by the board shall establish methods of payment for participation under this section, which may include establishment of a payroll deduction plan under section 3309.27 of the Revised Code, deduction of the full premium charged from a person's service, disability, or survivor benefit, or any other method of payment considered appropriate by the board. If the program is established jointly with one or more of the other retirement systems, the rules also shall establish the terms and conditions of such joint participation.

3309-1-65 Medicare part B reimbursement account.

- (A) As used in this rule, "eligible benefit recipient" has the same meaning as in paragraph (J)(2)(b) of rule 3309-1-35 of the Administrative Code.
- (B) The school employees retirement board has previously established a separate account within the funds described in section 3309.60 of the Revised Code for the purpose of reimbursing eligible benefit recipients for a portion of the cost of medicare part B coverage paid by the eligible benefit recipient, as authorized under section 3309.69 of the Revised Code, and in accordance with rule 3309-1-35 of the Administrative Code. The medicare part B reimbursement account shall be a separate account established pursuant to section 401(h) of the Internal Revenue Code, 26 U.S.C. 401(h). The assets in the medicare part B reimbursement account shall be accounted for separately from the other assets of the

school employees retirement system, but may be commingled with the other assets of the system for investment purposes. Investment earnings and expenses shall be allocated on a reasonable basis.

- (C) Each year the board designates the amount of contributions that are to be allocated to the medicare part B reimbursement account for any year. The contributions are funded by employer contributions under section 3309.49 of the Revised Code and are subordinate to the contributions for payment of retirement allowance and other benefits provided under Chapter 3309. of the Revised Code. At no time shall contributions to the medicare part B reimbursement account, when added to contributions for any life insurance benefits provided on behalf of eligible benefit recipients, be in excess of twenty-five per cent of the total aggregate actual contributions made to the school employees retirement system, excluding contributions to fund past service credit. In any event, all contributions to the medicare part B reimbursement account shall be reasonable and ascertainable.
- (D) The assets of the medicare part B reimbursement account are only used to pay reimbursement of medicare part B premiums paid by eligible benefit recipients and authorized under section 3309.69 of the Revised Code and in accordance with rule 3309-1-35 of the Administrative Code.
- (E) If any rights of an individual who is eligible to receive medicare part B reimbursement authorized under section 3309.69 of the Revised Code and paid from the medicare part B reimbursement account are forfeited as provided in rule 3309-1-35 of the Revised Code, an amount equal to the amount of such forfeiture shall be applied as soon as administratively possible to reduce employer contributions allocated to the medicare part B reimbursement account.
- (F) At no time prior to the satisfaction of all liabilities under this rule shall any assets in the medicare part B reimbursement account be used for, or diverted to, any purpose other than as provided in paragraph (D) of this rule and for the payment of administrative expenses relating to the medicare part B reimbursement account. Assets in the medicare part B reimbursement account may not be used for retirement, disability, or survivor benefits, or for any other purpose for which the other funds of the system are used.
- (G) If the school employees retirement board discontinues medicare part B reimbursement authorized under section 3309.69 of the Revised Code, or upon satisfaction of all liabilities under this rule, any assets in the medicare part B reimbursement account, if any, that are not used as provided in this rule shall be returned to the employers, as required by 26 U.S.C. 401(h)(5).
- (H) It is the intent of the school employees retirement board in adopting this rule to reflect its continuing compliance in all respects with sections 401(a) and 401(h) of the Internal Revenue Code, 26 U.S.C. 401, and regulations interpreting those sections. In applying this rule, the board will apply the interpretation that achieves compliance with those sections and preserves the qualified status of the system as a governmental plan under sections 401(a) and 414(d) of the Internal Revenue Code, 26 U.S.C. 401 and 414.
- (I) This rule is intended to reflect past and current policies, practices and procedures of the system with respect to the funding and payment of medicare part B reimbursements and does not confer any new rights to or create any vested interest in receiving medicare part B reimbursement for members, retirees, survivors, beneficiaries, or their dependents.

(2) A Summary of Coverage for 2021

Plans offered for those without Medicare were:

- Aetna Choice POS II and Express Scripts prescription drug plan
- AultCare PPO and AultCare prescription drug plan in 19 Ohio counties
- SERS Wraparound HRA

Plans offered for those with Medicare were:

- Aetna Medicare Plan (PPO) and Express Scripts prescription drug plan

Prescription drug coverage is provided with all group plans.

The SERS Wraparound HRA is available to health care participants who are not eligible for Medicare and not enrolled in Medicaid. Participants select an insurance plan through the Health Insurance Marketplace, which provided their primary coverage. SERS then “wraps” the Marketplace plan by providing additional benefits to reimburse a portion of the deductible, co-pays, and other costs.

Optional dental and vision plans were offered with separate premiums being charged. Dental coverage was administered through Delta Dental of Ohio, and the vision coverage through VSP Vision Care.

SERS does not subsidize the optional plan offerings.

The SERS Medicare Part B reimbursement rate is \$45.50 per month. It is paid to benefit recipients who retired prior to January 7, 2013, and are enrolled in Medicare Part B, as well as those who retired after that date who are enrolled in SERS’ health care coverage and Medicare Part B. SERS does not provide this reimbursement to anyone whose Medicare Part B is being paid by another source, such as Medicaid or a Medicare assistance program.

(3) A Summary of the Eligibility Requirements for the Benefits

SERS offers access to health care to eligible individuals receiving retirement, disability, and survivor benefits as well as access to health care for their eligible dependents. Eligibility for SERS’ health care coverage is based on qualified service credit.

Members who retire after June 1, 1986, need 10 years of service credit, exclusive of some types of purchased credit, to qualify to participate in SERS’ health care coverage.

Disability benefit recipients and some beneficiaries receiving monthly benefits due to the death of a member or eligible retiree qualify for SERS’ health care coverage.

To sign up for dental and/or vision coverage, individuals have to be eligible for, but do not have to be enrolled in, SERS’ health care coverage. They have to be enrolled in dental/vision coverage in order to enroll their spouse and/or children.

Service Retirees

Service retirees are eligible for coverage if they have at least 10 years of qualified service credit

at retirement. Qualified service credit includes earned or restored service credit; contributing service credit from State Teachers Retirement System of Ohio (STRS), Ohio Public Employees Retirement System (OPERS), Ohio Police & Fire Retirement System (OP&F), Ohio Highway Patrol System (HPRS), and the Cincinnati Retirement System, if it was not earned at the same time as SERS' service credit; and, Workers' Compensation credit.

Disability Benefit Recipients

Disability benefit recipients are eligible for SERS' health care coverage. The effective date of coverage is the later of the effective date of the disability benefit or the first day of the month following approval of the disability benefit. A disability benefit recipient who converts to an age and service retirement must have at least 10 years of qualified service credit, which includes the years they received a disability allowance.

Dependents

Benefit recipients enrolled in SERS' coverage may cover their spouse and children as dependents. A child includes a biological or legally adopted child, stepchild, or child for whom they have legal custody, up to age 26; and, a child, regardless of age, who is permanently and totally disabled, if the disability existed prior to the child reaching age 26.

(4) A Statement of the Number of Participants Eligible for Benefits

As of June 30, 2021, there were 80,721 benefit recipients eligible to participate in SERS' health care coverage.

(5) A Description of the Accounting, Asset Value, and Funding Method Used to Provide the Benefits

Accounting

SERS' financial statements are prepared using the accrual basis of accounting. Revenues are recognized when earned, and deductions are recorded when a liability is incurred. Member premiums and employer contributions are recognized in the period in which the contributions are due based on statutory or contractual requirements.

Amounts accrued for health care expenses in the Health Care Fund payable for recipients less than age 65 are based upon estimates that have been developed from prior claims experience.

Investment purchases and sales are recorded as of the trade date. Dividend income is recognized on the ex-dividend date. Other investment income is recognized when earned.

Investments are reported at fair value. Fixed income securities, real estate investment trusts, derivatives, and common and preferred stocks are valued based on published market prices and quotations from national security exchanges and securities pricing services. International stocks are then adjusted to reflect the current exchange rate of the underlying currency. Investments for which no national exchanges or pricing services exist, such as private equity assets, are valued at fair value by the investment partnership based on the valuation methodology outlined in the partnership agreement. Real estate may be valued by the manager or independent appraisers.

Commingled assets that are not traded on a national exchange are valued by the commingled manager. SERS performs due diligence reviews to assure that the asset values provided by the managers are reasonable.

Net appreciation is determined by calculating the change in the fair value of investments between the beginning of the year and the end of the year, less purchases of investments at cost, plus sales of investments at fair value. Investment expenses consist of external expenses directly related to SERS' investment operations, as well as internal administrative expenses associated with SERS' investment program.

The monies held by the Pension Trust, Medicare B, Death Benefit, and Health Care Funds are pooled for the purpose of the investment of those funds. Each fund holds units of the investment pool, which are adjusted on a monthly basis.

On June 2, 2015, Governmental Accounting Standards Board (GASB) Statement No. 74 and GASB Statement No. 75 (GASB 74 and 75) were adopted by the GASB Board. They required actuarial valuations of retiree medical and other post-employment benefit plans. GASB 74, which relates to accounting disclosures for plan sponsors, replaced GASB 43 beginning with fiscal years ending September 30, 2017. GASB 75, which relates to accounting disclosures for contributing employers, replaced GASB 45 beginning with fiscal years ending September 30, 2018.

GASB 74 requires plan sponsors to provide the net other post-employment benefits (OPEB) liability and other note disclosures along with supplementary information to employers. GASB 75 requires contributing employers to disclose the net OPEB liability on the statement of financial position and book an accounting expense based upon the entry age normal actuarial cost method. Beyond the use of a specified actuarial cost method, GASB's new disclosure standards also require the discount rate used to calculate liabilities to be based upon the yield of 20-year, tax-exempt municipal bonds, and the expected rate of return on plan assets, to the extent plan assets are projected to be available for the payment of future benefits.

Additionally, GASB 74 and 75 have brought about changes in the liability valuation and accounting disclosure processes which are expected to impact data collection, timing, and effort.

Asset Value

In accordance with GASB 74 and GASB 75, the assets are valued at market value.

Funding Method

SERS' health care is funded on a pay-as-you-go basis. SERS funds health care through a combination of investment income generated on the Health Care Fund, federal subsidies, premiums, and employer contributions, including a separate health care surcharge to compensate for low-wage earners. The surcharge is levied against employers whose employees earn less than a specified minimum salary. It is an important source of health care revenue and avoids shifting a financial burden to members and retirees.

The medical and drug benefits of the health care plan are included in the actuarially calculated

contribution rates, which are developed using the entry age normal actuarial cost method with the normal cost rate determined as a level percentage of payroll. GASB requires the discount rate used to value a plan to be based on the likely return of the assets held in trust to pay benefits. The discount rate used in this valuation is 5.25%.

In 2015, the SERS Retirement Board made changes to its Funding Policy to require that all 14% of the employers' contribution be allocated to SERS' basic benefits if the pension's funded ratio is less than 70%. If the funded ratio is 70% but less than 80%, at least 13.50% of the employers' contribution shall be allocated to SERS' basic benefits, with the remainder (if any) allocated to the Health Care Fund. If the funded ratio is 80% but less than 90%, at least 13.25% of the employers' contribution shall be allocated to SERS' basic benefits, with the remainder (if any) allocated to the Health Care Fund. If the funded ratio is 90% or greater, the Health Care Fund may receive any portion of the employers' contribution that is not needed to fund SERS' basic benefits.
