Disabilities for OSHP officers are covered by ORC 5505.18 and OAC 5505-3-02. In-the-line-of-duty disabilities are calculated at a minimum service credit of 25 years. All others (off-duty) are calculated at a minimum service credit of 12 years. HB362, which became effective 5/11/2018, reduced the minimum service credit for off-duty disabilities from 20 years (50%) to 12 years (30%). To be eligible for an off-duty disability, a member must have five or more years of qualifying HPRS service credit.

The total number of retirees on disability increased from **144** at the end of **2019** to **149** at the end of **2020**. This includes the appeal for one member being granted in 2020 that had been terminated in 2019.

Based on historical records, HPRS has had a total of **219** people who were granted disability benefits. Currently, HPRS has **149** retirees on disability with **86** of those being in-the-line-of-duty and **63** being off-duty. There is a mandatory retirement age of 60 for all Highway Patrol officers. A total of **56** disability retirees are over the mandatory retirement age of 60 and prohibited from returning to work.

For informational purposes, a breakdown of the reasons for disability is shown in the following table.

Reason	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	All Time	% of Total

*The number and percentage for “Other” normally would be included in one of the other five categories, but these records are older and do not indicate the reason for the disability.
